STUDIOS

GEAR

Your voice is recorded through state-of-the-art Neumann condenser Micro-phones inside each recording booth, along with Native Instruments Audio inter-faces and Preamplifiers.

Software platforms are based on Mac OS along with Avid ProTools, Adobe Audi-tion and Apple FinalCut Pro X to produce your project at the highest standard of audio-visual quality.

Translation and linguistic control process are conducted by human Linguistic Experts since our content development policies minimize the usage of automat-ed translation/ reformatting tools to the least possible level to preserve an original cultural essence for the localized material.
